Commuting Better, Connecting Faster

Indonesia Construction Overview

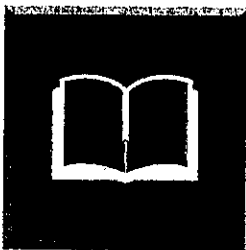

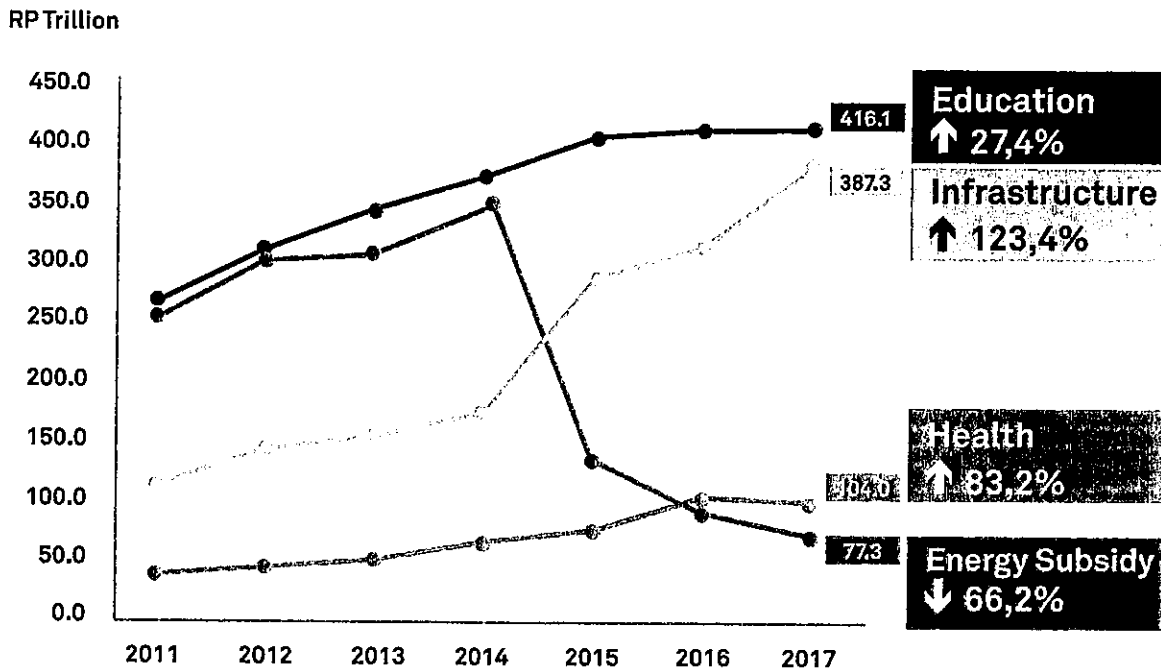

The President of Republic of Indonesia – Mr. Joko Widodo, declared Indonesia's main objective is to focus on recovering the nationwide economy situation. Several initiatives and policy has been arranged to support the economic growth. With regards to supporting the improvement of national economy, the government of Indonesia is focusing to develop the national infrastructure especially on the transportation sector.

By focusing the national infrastructure especially on new road construction and improvement, every corner in Indonesia will be reachable which leads to better commuting and faster connection among the cities within the country. This initiative will reduce the high expense in transportation and logistics, encouraging the business and public to increase their expenditures on the real sector. Also, opens up a business opportunity and more, the development of other cities & infrastructure project in Indonesia.

Acceleration of Infrastructure Development through Policies, Institutions, Financing and Project Preparations

Allocation State Budget (APBN) in 2011 - 2017

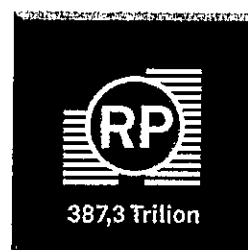

Issued President's Policy (PEPRES) No 75 Year 2014

Testimonials

PT Natraco Tunas Citra

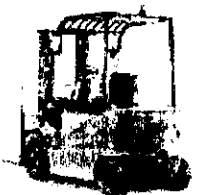

The Exhibitions are good, I was satisfied to see visitor profile aspect because unexpectedly the high profile visitors like owner and director are come and visit my booth, that's good for our business. *Mr Andika from Natraco Booth no. 3-N-3*

PT Uniquip

The exhibitions are good, if we viewed from the enthusiasm of the visitors, many are very enthusiastic to see the heavy equipment machinery. *Mr Edi from Uniquip Booth no. 3-0-3*

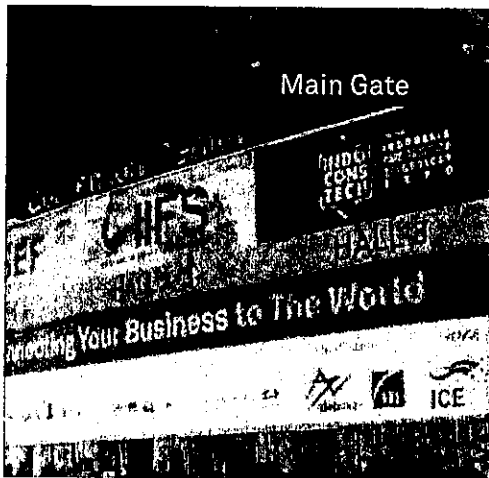

PT Liftco Indo Perkasa

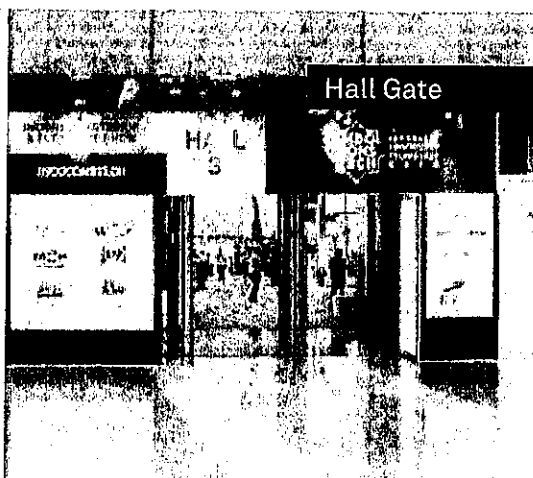

Quite Interesting Exhibition, many hot prospects gained from the exhibition, we are satisfied with the organizer works. I think the organizer made an amazing works, They are quick response, well communicated, we feel no trouble during the exhibition, and one thing the exhibitions area especially hall 3 and 3A are cleaner compared to another hall. *Mr Fridolin from Liftco Indo Perkasa Booth no. 3-N-1*

Sponsorship Package

Indoconstech is proud to present the exhibitor with exclusive opportunities for sponsoring the exhibition. The sponsorship packages are design to drive the branding and corporate image exposure across vast audiences of potential visitors during and before the show days. Each package will surely bring in immense benefit and added values for the exhibitors of Indoconstech.
