

**AMALGAMATED BATTERIES
MANUFACTURING (SARAWAK) SDN. BHD**

The Company Profile

Amalgamated Batteries Manufacturing (Sarawak) Sdn. Bhd. ("ABM") was established in 1971 to primarily manufacture complete units of automotive batteries in sizes ranging from 7-plate batteries to 33-plate batteries. These batteries serve many of Malaysian, Japanese, Korean, and European-made vehicles, from small passenger cars to buses and trucks. Its operation started from a humble workshop, but over the years, it has grown from strength to strength culminating in the investment of more than RM30 million in a stylish and modern factory cum office block as well as new and modernized plant and machinery accomplished in early 2000.

For 52 years, ABM has made substantial investments in high-tech and automated plants and machinery to manufacture products that are world-class quality. Also, its concentration on human resource development has rewarded ABM with the reputation of creating good quality and reliable products. ABM also received the ISO 9002:1994 certification in 2001, MS ISO 9001:2000 accreditation in 2003, and MS ISO 9001: 2008 in 2009. ABM has enhanced its quality control methods and attained MS ISO 9001:2015 accreditation in 2018 as part of its commitment to consistently improving the quality of its goods. In 2022, ABM was also awarded with the Export Excellence Award, Sarawak Entrepreneur Of The Year Award, Sarawak State Outstanding Entrepreneurship Award, as well as many other awards over the years such as Asia Corporate Excellence & Sustainability Award in 2020 (ACES), Sustainability & CSR Malaysia Award 2020, Industry Excellent Award 2020, The World Chinese Outstanding Entrepreneur Lifetime Achievement Award in Macao 2019, Asia's Most Trusted Company 2019 (International Brand Consulting Corporation, USA), Top Asia Corporate Ball 2019 - Best Brand Company Award 2019, Asia Pacific Outstanding Entrepreneur Lifetime Achievement Award 2019, Export Excellence Award Night 2019, Star Outstanding Business Award (SOBA) 2019, The Brandlaureate World Bestbrands Awards 2019, Sarawak State Entrepreneur Of The

Year Awards Book (2nd Edition) 2019, Corporate Social Responsibility (CSR) Award 2018 And 2019, The Brandlaureate SMEs Bestbrands Blue Chip Award 2013, Outstanding Business Awards 2012 And 2010, Super Excellent Brand 2009 and others awards.

Currently, ABM has ten (10) production lines with a maximum monthly capacity of two hundred thousand (200,000) unit of car batteries. Our effort of continuous improvement and constant training supplied to our workforce of 200 plus workers has developed a strong and consistent strength that makes our products competitive in the market, allowing us to grow our market to over 50 nations.

In addition to batteries for vehicle applications, our product line has expanded to include batteries for recreational applications (Golf Buggies Caravan, Water Jet Ski), solar energy storage applications, electrical equipment applications (electric wheelchair, lift platform), and marine applications. ABM has six factories responsible for plate preparation, battery production, battery charging, plastic casing injection, and warehouse storage to ship finished goods to consumers.

In 2023, our new facility No. 6 (Fuya Energy Sdn. Bhd) will be completed, and we will start the whole operation soon. That new facility is outfitted with the most technologies and know-how, which allows us to produce Enhanced Flooded Batteries (EFB) to cater for electric, hybrid, start-stop, and energy-efficient vehicles. This new facility is a Joint Partnership with our Chinese partner, Jujiang Power Technology Company Limited, one of China's largest battery manufacturers. The new facility will be able to produce between 5.5 and 6 million per year with EFB (Efficient Flooded Battery) and SMF batteries as the primary product lines for stage one, an additional of 2 to 3million batteries with the introduction of stage two.

Amalgamated Batteries Manufacturing (Sarawak) Sdn. Bhd. has acknowledged being established from good to great and will cultivate to peaks in the future!
