

Spearheading the Global Halal Medical Industry in Malaysia

2022.09.08
(Thu.)

14:00 – 17:00
(13:30 Registration)

Google Meet
(Platform)

Background

In 2021, 1.9 billion of Muslims worldwide spent an average of USD 2 trillion in food, pharmaceutical, cosmetics, fashion, travel, and media/recreation sectors, reflecting 8.9% y-o-y growth from 2020. Muslim expenditure on pharmaceuticals in 2021 increased 6.5% in 2021, from USD 93.5 billion to USD 100 billion, and is expected to grow by a further 6.7% in 2022 to USD 106 billion reach USD 129 billion in 2025 at a 4-year CAGR of 6.7%. (Source: State of the Global Islamic Economy)

Despite the uncertainties of the global economy due to the COVID-19 pandemic, Investment in Halal pharmaceutical production parks recorded an increase of 1.25 percent. This reflects the growing interest of investors towards Halal pharmaceutical and tech-based medical related products/services.

The Halal industry has been identified as a strategic and high-impact sector under the 12th Malaysia Plan. In line with our aspiration to promote Malaysia as a global halal hub, the Malaysian Friendship and Trade Centre (MFTC) is scheduled to organize an online seminar on “Malaysia: Spearheading the Global Halal Medical Industry” on September 8th, 2022. The seminar also aimed to increase the awareness of the participants on the opportunities in Halal and Malaysia’s capabilities in the life sciences related industry.

This seminar will gather government officials, experts and industry players to share their experiences on the opportunities in the Halal medical industry. This seminar is also honored to have the representatives from the Ministry of Health and Welfare Taiwan and the Superintendent of the China Medical University Hospital to deliver their special remarks.

It is hoped that the outcome of this seminar would generate positive exchanges that will help drive practical cooperation between Malaysia and Taiwan in uplifting the development of halal talent, accelerating industry development and increasing product competitiveness in the halal medical sector.
