Premium line in bakery products

MEDITERRANEAN SEASONED CRISPBREAD WITH WHOLEGRAIN RYE FLOUR AND SESAME

Thanks to rye it is a high fiber crispbread, the sesame gives an extra texture and the flavoring makes this bread a great option also to take it on its own.

ONION CRISPBREAD MADE FROM WHOLEGRAIN WHEAT FLOUR

It is a lightly seasoned flatbread is rich in fiber and also has a higher than average protein content.

CRISPBREAD WITH GARLIC AND SESAME

Garlic has been used around the world for centuries for food and medicinal purposes. Together with the sesame seed this crispbread can be a great option for every day.

GLUTEN-FREE CRISPBREAD WITH MIXED SEASONING

Often the Gluten free options are low in taste, but for sure this product will be the favorite of those, who need to avoid gluten, thanks to the great flavoring mixture

GLUTEN-FREE CRISPBREAD WITH ANDES SALT, SESAME AND CHIA SEEDS

Our next GF flatbread is not only a safe option for those in dietary need, but thanks to the super-seeds and the famous andes salt it is also a fantastic health conscious and tasteful option to take

7*25 g narrow crispbread in metallized foil, packed in a box.

Premium line in bakery products

GLUTEN-FREE CRISPBREAD WITH PROVENCE SEASONING

„Herbs de Provence” are famous all over the world, as it is a base for loads of great tasting dish. We have used this mixture also in this gluten free crispbread to offer it as a great substitution of a bread or just to be used as a party snack

NATURAL CRISPBREAD MADE FROM ORGANIC SPELT

Spelt is an ancient whole grain. It is high in carbs. It's also an excellent source of dietary fiber, and contains some vitamins and minerals. All of these advantages are making this crispbread option a great everyday choice.

NATURAL CRISPBREAD MADE FROM WHOLEGRAIN ORGANIC WHEAT FLOUR

Organic, and high in fiber. This flatbread option has a great texture and a nice, yet neutral taste, so it fits with any toppings or dipping.

#10

Currently we use these **10 different nuts and seeds** for our products.

At Nébar we aim to find the **best quality** of raw nuts/seeds coming from different parts of the world.

Before production **we test the quality** to ensure the consistent premium result in the final product.

This is essential since **we do not use any preservatives**, colorants, **only 100% natural ingredients**.

Nut butters for consumers

PISTACCHIO

Beautiful green, has few calories and a lot of protein. High in fibre and may even help with weight reduction.

WALNUT

It contains the greatest amount of omega-3 fatty acids, thus does have anti-inflammatory properties. In nutritional values similar to peanut butter.

CASHEW

It is a great source of magnesium and sodium, that could regulate blood pressure level. It contains the least fat compared to other nuts

PECAN

Very rich in protein, healthy fats and fiber that can help keep you energized. Snacking 2-3 spoons of nutbutter when hungry helps you feel full.

PUMPKIN

It is a good source of magnesium, that can help improve sleep, regulate high cholesterol and blood sugar levels. Pumpkin seeds are a good source of antioxidants too.

HAZELNUT

It provides nutrients and healthy fats, vitamin B6, phosphorus, folic acid, zinc and potassium. It is associated with a reduction of inflammation

ALMOND

It supports the healthy digestive system, high in fibre and probiotics, naturally promotes skin health helps to reduce weight and cholesterol

PEANUT

It has high-class nutritional composition, such as proteins, magnesium, phosphorus, zinc, Vitamin B3 and B6. It contributes weight loss and promotes heart health and low blood sugar.

SESAME (TAHINI)

It can give a nutty flavor & subtle crunch to many dishes. These seeds are a good source of several nutrients crucial for your immune system, including zinc, selenium, copper, iron, vitamin B6 and vitamin E.

Pastes in on-trade, industrial use
