

KING RAISED TOILET SEATS

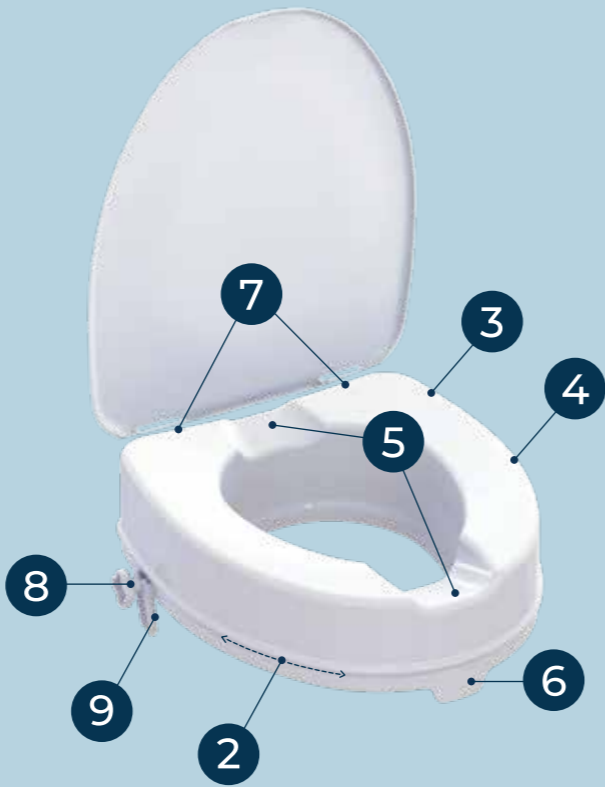

WITH LATERAL LOCKING SYSTEM

The Raised Toilet Seat line is designed to assist the elderly and post-operative patients who struggle when sitting down or standing up to and from the toilet. These seats are also suitable for wheelchair users ensuring a smooth and effortless transition from the wheelchair to the toilet. The raised toilet seat range is available in three different heights, with or without a lid. A soft cushion accessory is available in light blue and light grey colors to enhance comfort. KING Raised Toilet Seats are the perfect solution for improved accessibility and independence. 1 (next page)

Key Product Features

- Made in Italy.
- Designed for comfort and safety.
- Hermetic seat made of premium quality plastic prevents bacterial transmission or growth. 2
- Wide support seat surface with smooth edges reduces pressure on the ischial tuberosities. 3
- Ergonomic frontward sloping seat promotes a correct sitting position and reduces knees and hips flexion. 4
- Personal hygiene is allowed by the front and rear openings. 5
- Designed to adapt to a wide variety of various toilet bowls, even the square ones. 6
- Lightweight and stable.
- Easy to clean.
- Easy switching from the version without to that with lid, with no need to perform any kind of modification to the original product. 7
- Dishwasher friendly.
- Maintenance free.
- Locking system designed with easy-grabbing knob, making it easy to adjust also for users who suffer from arthritis. 8
- The locking clamps are made with anti slip rubber inserts to provide maximum stability and safety. 9
- Easy tool free assembly.
- Flat packaging to minimise transport costs.
- Accessories available for enhanced design, comfort and hygiene. 10 (next page)
- 5 years warranty.
- Certified maximum user weight: 250 kg / 550 lb.

KING RAISED TOILET SEATS

WITH FRONT LOCKING SYSTEM

The Raised Toilet Seat with the front locking system is designed to assist the elderly and post-operative patients who struggle when sitting down or standing up to and from the toilet. These seats are also suitable for wheelchair users ensuring a smooth and effortless transition from the wheelchair to the toilet. The front locking system provides the best adaptation to every toilet bowl including the elongated ones and it guarantees great stability to the models with fixed or folding armrests. The raised toilet seats with armrests provide extra safety and comfort, allowing for greater autonomy. KING Raised Toilet Seats are the perfect solution for improved accessibility and independence. 1 (next page)
