

KING SOFT RAISED TOILET SEATS

WITH LATERAL LOCKING SYSTEM

The Soft Raised Toilet Seat line is designed to assist the elderly and post-operative patients who struggle when sitting down or standing up to and from the toilet. These seats are also suitable for wheelchair users ensuring a smooth and effortless transition from the wheelchair to the toilet. The Soft raised toilet seat range is available in three different heights, with or without a lid. The soft cushion provides extra padding, making the seat more comfortable for people with sensitive skin, including those with diabetes.

KING Soft Raised Toilet Seats are the perfect solution for improved accessibility and independence. **1** (next page)

Key Product Features

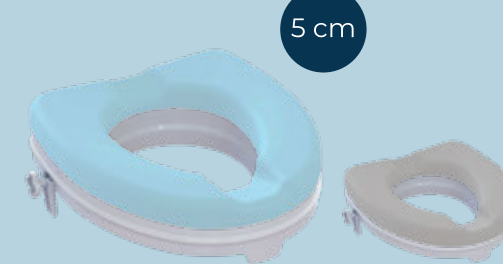

- Made in Italy.
- Designed for comfort and safety.
- Hermetic seat made of premium quality plastic prevents bacterial transmission or growth. **2**
