

KING WALL MOUNTED SEATS

WITH OR WITHOUT LEGS

The Wall-Mounted Shower Seat range is designed to support individuals who need assistance while showering or carrying out personal care routines in the bathroom. The product is assembled and ready to be attached to the wall, the seat is compact, and the leg sockets are prominently designed to ensure complete stability. Its sleek, modern design is aesthetically pleasing for any bathroom and suitable whether in private homes or healthcare facilities. The materials used ensure strength, hygiene, and durability. The folding system allows the wall-mounted seat to fit well, even in a small shower. The Wall-mounted seats are available with or without legs, and in a shorter version. 1 (next page)
