The right service model for every requirement

A structured path for professional buyers — from a single item to an integrated procurement.

B2C

Individuals & Professionals

Clear product and compatibility information across tactical, protective, outdoor, optical, communications and medical equipment.

B2B

Businesses & Dealers

Bulk purchasing, dealer partnerships, specification review, supply terms and formal quotations for long-term cooperation.

B2G

Government & Institutions

Support for tenders, small procurements and departmental requirements, including documentation and acceptance.

We help complete the requirement — not just supply the product

01 Brand & Equipment Sourcing

Suitable brands, products and alternatives based on mission, environment, budget and use conditions.

02 Specification & Integration

Compatibility, configuration, documentation and implementation requirements reviewed as one system.

03 Procurement & Delivery

Quotations, quantities, availability, lead times and delivery milestones coordinated through one contact.

04 Lifecycle Support

Warranty, repair, replenishment, product updates and ongoing service coordination after delivery.

A cross-brand, cross-category equipment ecosystem

Four connected equipment domains, coordinated through one team.

TACTICAL & PROTECTION

MISSION STORAGE &
ACCESSORIES

GOVERNMENT & INSTITUTIONAL PROCUREMENT

A clear path from requirement to acceptance

- | | | |
|----|-------------------------------------|--|
| 01 | Requirement Review | Organization, use case, quantity, budget and timeline. |
| 02 | Solution & Specification | Selection, compatibility, alternatives and documentation. |
| 03 | Quotation & Delivery | Pricing, supply, lead time, payment and delivery milestones. |
| 04 | Ongoing Support | Warranty, repair, replenishment and future requirements. |

Partnership routes built around the market requirement

We welcome discussions with brands, dealers, integrators and procurement organizations.

BRAND REPRESENTATION

Market access, local positioning, channel development and customer support.

DEALER COOPERATION

Supply terms, product training, quotation support and long-term replenishment.

OEM / ODM COLLABORATION

Requirement translation, customization discussions and coordinated development.

OVERSEAS SOURCING

Supplier coordination, documentation, availability and delivery planning.

NOVARA BALLISTICS

Taiwan-made ballistic products with a dedicated product passport

K.T.Tactical provides a dedicated product passport service for ballistic products, helping users review product history and related information through a dedicated portal.

Product passport portal

ktppassport.com

LET'S BUILD THE RIGHT SOLUTION

Tell us the use case, quantity and target timeline.

Our team will help determine the next step — from a single professional item to an integrated procurement.
