ARTISAN-MADE PREMIUM PISCO FROM CHILE

START YOUR
JOURNEY

PISCO

Chilean pisco is a truly unique, versatile and delightful spirit made by distillation of genuine potable wine.

It's production consists of four major phases: the cultivation and harvesting of pisco grapes, vinification for pisco purposes, the distillation of wine to obtain pisco and, finally, packaging in consumer units.

Chilean pisco is generally a fruity and floral spirit, ideal for enjoying neat or mixing into elevated cocktails.

CURU

Curu is an artisan made premium pisco for adventurers, people who love to live life and are not afraid to face the unknown. For those who are capable of crossing oceans, continents and turbulent skies to achieve their dreams and desires.

The meaning of 'CURU' in the Diaguita language means 'journey' and was chosen to honor all those travelers who have dared to discover distant lands.
