

GREENEX

Naturally Fresh

Greenex is an exporting company whose partners have over 20 years of experience in the agro-export sector.

It is a dedicated exporter to its growers, competitive, diversified, and committed to innovation in its processes and products adding value to the agricultural business.

Greenex is a vertically integrated company, from fruit production and processing to transportation and sales. The company emerged from the collective need of its owners to explore and diversify their markets and maximize their returns.

Greenex has a facility for fruit processing with the latest technology, highly trained staff, technical consultancy, and provides support to the growers throughout the entire process – from establishing their orchard to exporting their fruit.

The company has a workforce that includes 101 permanent employees and 1176 temporary employees, all of whom are highly skilled and trained.
