NAIL GLOW + **NEW**

STRENGTHENS | HYDRATES | GLOWY TINT

This innovative 2-in-1 formula delivers the strengthening benefits of a nail treatment with the effortless beauty of a sheer, buildable jelly tint. The formula is infused with a nourishing blend of Cucumber Extract, known for its hydrating and soothing properties, Buckwheat Seed Extract to help improve nail resilience, and Cranberry Fruit Extract, rich in antioxidants to support overall nail health. The result is a healthy flush of color and a high-shine finish—for stronger nails that look glossier, healthier, and more radiant with every application.

PRO-TIP: For extended wear pair with Probelle's Top Coat Sealer.

SUPERHERO INGREDIENTS

- Cucumber hydrates and soothes nails.
- Buckwheat strengthens & protects nails keratin.
- Cranberry moisturizes and nourishes nails.

HOW TO USE

- Apply 1-2 coats: 1 layer gives a sheer wash of color, while 2 coats provides more coverage and a more vivid color payoff.
- Let each coat dry for a few minutes before applying next coat.

BOTANICAL CUTICLE COMPLEX

CONDITIONS | SOFTENS | MOISTURIZES

Botanical Cuticle Complex protects & restores dry, or damaged cuticles. Our conditioning formula absorbs quickly & provides instant hydration with infusions of Kukui Nut Oil & Vitamin E, while Almond Oil protects nails from peeling & cracking!

PRO-TIP: Gently massage one drop into each cuticle daily, or as needed.

SUPERHERO INGREDIENTS

Almond Oil, Kukui Nut Oil & Vitamin E

HOW TO USE

Apply around cuticle area on fingernails & toes as needed. Can be used daily. For home & professional manicures.

ANTI-BITE

MATTE FINISH | DETERS NAIL-BITING | PREVENTS THUMB SUCKING

Formula instantly deters thumb sucking & nail biting while actively making nails healthier & stronger! Infused with Marine Algae, Nettle Extract, & Horse Chestnut to create an extremely bitter taste with a clear matte finish.

PRO-TIP: Use on bare nails every 2-3 days for best results.

SUPERHERO INGREDIENTS

Vitamin E, Sunflower Seed Oil, Marine Algae, Vitamin A, Nettle Extract and Horse Chestnut

HOW TO USE

Apply 1-2 coats per nail in a thin, even layer. Reapply every 2-3 days or, as needed. To remove, use a polish remover of choice. The product is absorbed by nails, you may continue to taste the Anti-Bite for a short period of time even after removal.

HYDRATING BASE COAT

HYDRATES | PROTECTS | PROVIDES FLEXIBILITY

Nails prone to repeated wetting & drying cause nails to become dry, flaky & brittle. This condition worsens in areas with low humidity & during the cold winter months. Probelle's Hydrating Base Coat uses a rich blend of protein, vitamins & aloe to hydrate & protect nails. It improves nail texture & flexibility to restore the appearance of healthy, natural nails. Advanced blend of bonding ingredients extends the life of a manicure & dries quickly while providing nails with needed hydration & a clear, high-gloss finish.

SUPERHERO INGREDIENTS

Vitamin E, Keratin, Vitamin A & Aloe

HOW TO USE

Apply 1 or 2 coats to reach the desired finish. Recommended for use with every manicure.

TOP COAT SEALER

HIGH-GLOSS | FAST DRY | SEALS & PROTECTS
Top Coat Sealer is a long lasting manicure top coat that provides an ultra-high gloss finish. Made to be applied with regular lacquer shades, it is applied as the final step in a manicure application to seal in color & extend wear.

PRO-TIP: Use on bare nails or over manicured nails, for best results.

SUPERHERO INGREDIENTS

Almond Oil, Kukui Nut Oil & Vitamin E

HOW TO USE

Apply 1 to 2 coats to reach the desired finish. Reapply twice a week if needed to revive shine.

NAIL CONCEALER

ILLUMINATES | PERFECTS DISCOLORED NAILS

Our advanced formula combines vibrant color and nourishing care to give your nails an instant, healthy-looking glow. Infused with pearlescent light reflectors and optical brighteners, it filters out yellow discoloration, providing a luminous and flawless finish. The innovative formula, enriched with botanical ingredients, works like an instant filter, delivering a brighter, soft-focus milky manicure in minutes.

PRO-TIP: For extended wear pair with Probelle's Top Coat Sealer.

SUPERHERO INGREDIENTS

- Celery Extract: Strengthens nails & keeps chip-free
- Cucumber Extract: Softens cuticles & hydrates nails
- Vitamin A & E: Supports nail strength & smoothness

HOW TO USE

- Start with clean dry nails.
- Apply 1-2 coats: 1 layer gives a sheer wash of color, 2 coats provides more coverage and a more vivid color payoff.
- For extended wear, finish with Probelle's Top Coat Sealer.
- Let each coat dry for minutes before applying next coat.

FOOT CARE

The human foot has 25 bones, 33 joints, 107 ligaments, and 19 muscles – an essential part of your body to nurture.

NICKEL

STAINLESS
STEEL

NICKEL FOOT FILE

SAFE | SMOOTHS | PROTECTS

The Nickel Foot File is a premium quality, double-sided file that immediately reduces calluses & corns to powder for instant results. Use it in any direction without any damage to your skin; it painlessly softens rough, callused feet. The surface doesn't oxidize or rust. Other attributes include an antimicrobial surface that is easy to clean & the lightweight, easy-to-use grip handle doesn't slip out of your hands.

HOW TO USE

Use on dry feet ONLY. Using the coarse side, file your foot gently with back & forth strokes until calluses turn into powder. Then, proceed with the medium side until skin is smooth. Sanitize with warm water & antibacterial soap.

PRO TIP: Follow up with Probelle Advanced Total Foot Cream.

STAINLESS STEEL FOOT FILE

LIGHTWEIGHT | LARGE | SOFTENS

A professional grade, stainless steel foot file designed to remove calluses & corns. Experience immediate results after use on dry or wet feet. Typically used during professional salon pedicure, this foot file can be used in the privacy of your own home. Lightweight & large surface for easy use & function.

HOW TO USE

Can be used on dry or wet skin. For best results, soak feet for at least 5 - 15 minutes, skin should be as soft as possible before using the foot file. Remove excess water. Gently place the file against the foot & use a downward motion to file off any thick skin.

PRO TIP: Follow up with Probelle Advanced Total Foot Cream.

FUNGAL CARE

A healthy outside starts from the inside.

Natural plant based ingredients to the rescue!

LIQUID

GEL

WHAT IS FUNGUS?

Nail Fungus is an infection that lives on dead tissue such as nails & skin causing changes to the appearance that leads to discomfort or loss of nail. Nail fungus is more common on toenails than fingernails, fungus can spread to several nails if not isolated.

SYMPTOMS OF FUNGAL INFECTION

- Thickened nails
- Brittle, crumbling or ragged nails
- Distorted, lifted nails
- Discoloration, yellowing, browning or white spots
- Dark debris build up underneath the nail
- Separation of the nail from the nail bed
- Odor
- Itchiness
- Irritation, tenderness or discomfort
- Inflamed, red skin

WHO'S AT RISK?

More prevalent among those over 60 years of age and those who have other medical conditions such as athlete's foot, nail psoriasis or trauma, bad circulation, diabetes, or a weakened immune system.

WHAT'S ON THE MARKET

Common over-the-counter medicines, prescriptions & natural essential oils work as an explosion, from the inside-out, causing harm among other toxic side effects to the skin to treat fungus. Tea tree, Thymol & Oreganol derive from defensive (toxic) chemicals produced by plants to defend themselves by poisoning grazing animals if they eat leaves or too much bark. These ingredients commonly target fungus with harmful side effects such as irritated skin & strong odors.

PROBELLE FUNGAL SOLUTIONS

Are the only products on the market using patented lauric esters extracted from coconut & palm kernel oil to restore nails affected by fungus naturally. Inspired by the palm trees natural defense system, Probelle is uniquely qualified to target fungus while gently protecting the skin with clinically proven results.

NATURE'S DEFENSE

Palm trees thrive in hot, humid climates where their #1 threat is fungal diseases. Their primary goal is to protect their seeds from infection; the palm trees use lauric esters to remove any threats while providing protection. Inspired by this process, our products incorporate this method to treat fungus found on skin & nails, naturally.

THE PROCESS

Probelle Fungal solutions start with natural raw materials then use a sophisticated chemical process & patented technology that concentrate forms of lauric esters that are safe to apply to sensitive skin & nails. The process is harmonious because lauric esters are found on healthy skin which is an integral part of the natural process and much stronger at targeting microbes (fungus) than coconut oil alone.

NATURE'S DEFENSE

Palm trees thrive in hot, humid climates where their #1 threat is fungal diseases. Their primary goal is to protect their seeds from infection; the palm trees use lauric esters to remove any threats while providing protection. Inspired by this process, our products incorporate this method to naturally restore the appearance of nails damaged by fungus.

DUAL ACTION METHOD

Much like a good gardener tending to plants by targeting weeds, the lauric esters are used to remove fungus but protect the skin.

- First, it disrupts the pH levels to inhibit the fungal environment & growth by peeling back layers of the fungal wall & starving the fungus.
- Second, it initiates & boosts natural skin defenses to protect the skin from irritation using lauric esters which identify trouble making microbes to target fungus without harming the skin. Hurts the fungus, not you.

RESULTS:

Most users see & feel results within 1-2 weeks. We recommend using the product until satisfactory results are experienced. Due to the slow pace at which your finger & toenails nails grow, while considering the severity of the infection, the new growth or non-infected part of nail may take 6 months for fingernails to 1 year for the toenail to fully heal.

NATURAL FUNGAL NAIL OIL

GLASS APPLICATOR | ODORLESS | COLORLESS
Natural Fungal Nail Oil improves the appearance of nails damaged by fungus. Our topical formula is infused with lauric esters derived from natural plant-based ingredients to condition skin, penetrate the nail plate and increase the skin's pH level to help improve the appearance of nails that are discolored, thick or brittle. The affected nail will restore to its original healthy state. At the same time, the formula works to relieve discomfort or irritated skin naturally.

Glass dropper tip allows for a no-touch application, keeping the applicator & formula free from contamination.

SUPERSTAR INGREDIENTS:

Lauric Esters extracted from plant based ingredients.

WARNING:

For topical use only. If redness or rash develops are the area, discontinue use and contact your physician.

- Absorbs quickly
- No touch application
- 100% Natural
- Odorless
- Colorless
- Non-Irritant

HOW TO USE

Apply twice a day by rubbing on the skin, cuticle, & nail affected areas. Absorbs quickly. PRO TIP: Wash hands & the affected area with Probelle Natural Fungal Cleansing Wash before application.

NATURAL NAIL RENEWAL GEL

NON SCENTED | EXTRA STRENGTH | COLORLESS

Natural Nail Renewal Gel is a gentle, colorless formula crafted from 100% natural ingredients, including lauric esters derived from coconut and palm kernel oil. Designed to enhance the natural beauty of your nails, this gel is free from harmful ingredients and safe for daily use, making it perfect for those seeking a natural approach to nail care.

HOW IT WORKS

Probelle solutions are the only products on the market using patented lauric esters. These lauric esters are extracted from plant based ingredients to restore nails affected by fungus naturally. Much like a good gardener tending to plants by targeting weeds, lauric esters safely breakdown & remove fungus while protecting the skin from irritation or harmful side effects.

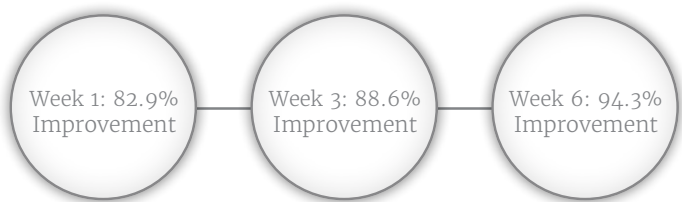

- Dermatologist Tested
- Clinically Tested
- 100% Natural
- Odorless
- Non-Irritant
- 94% Success Rate
- Extra Strength
- Colorless

HOW TO USE

Apply a thin layer daily before bedtime by rubbing on the skin, cuticle, & nail affected areas. Allow a few minutes to dry due to thicker, concentrated formula.

CLINICALLY TESTED

Over 94% Improvement & Success Rate in a 6 Week Clinical Test* with 35 subjects which were required to apply the gel once a day for 6 weeks.

*Clinically Tested Results by Clinical Research Laboratories, LLC (Clinical Test Number: CRL22116).

DERMATOLOGIST TESTED

Under the conditions of a repeated insult patch test procedure conducted with 51 subjects (49% of whom had self-perceived sensitive skin), the results indicate that the gel does not associate with skin irritation or allergic contact dermatitis.
