International Presence

A *family* company

- We are a traditional and family owned company.
- We have been growing world-class fruit for more than 40 years.

FAMILY FARMERS
SINCE 1970

Our **vision** is to be **globally recognized**
as a **leading company** in the
production and **export** of **fresh fruit**,
committed to **excellence** in **quality**,
and **caring** for its **people** and
environment.

Our Values

Transparency

Honestly and truthfulness in communicating with all our stakeholders.

Trust

Credibility in what we convey and do.

Commitment

Responsibility and enthusiasm for the agreed-upon goals.

Quality

Considering every detail to consistently achieve outstanding products and services.

Operational Excellence

Passion for a job well done.

We are *growers*

Experts in *fresh fruit from our orchards* **to the world**

Our Orchards

Much of our orchards, as well as those of our producers, are located in the Central Valley, in the O'Higgins and Maule regions, the main fruit production areas of Chile. In the Central Valley, the geography provides exceptional phytosanitary conditions with rich, fertile soils, allowing us to produce fresh, delicious, and high-quality fruits.

Quality Fruit
Quality Life

2. **Our** products

Sweet and firm *cherries*

Crispy and aromatic *nectarines*

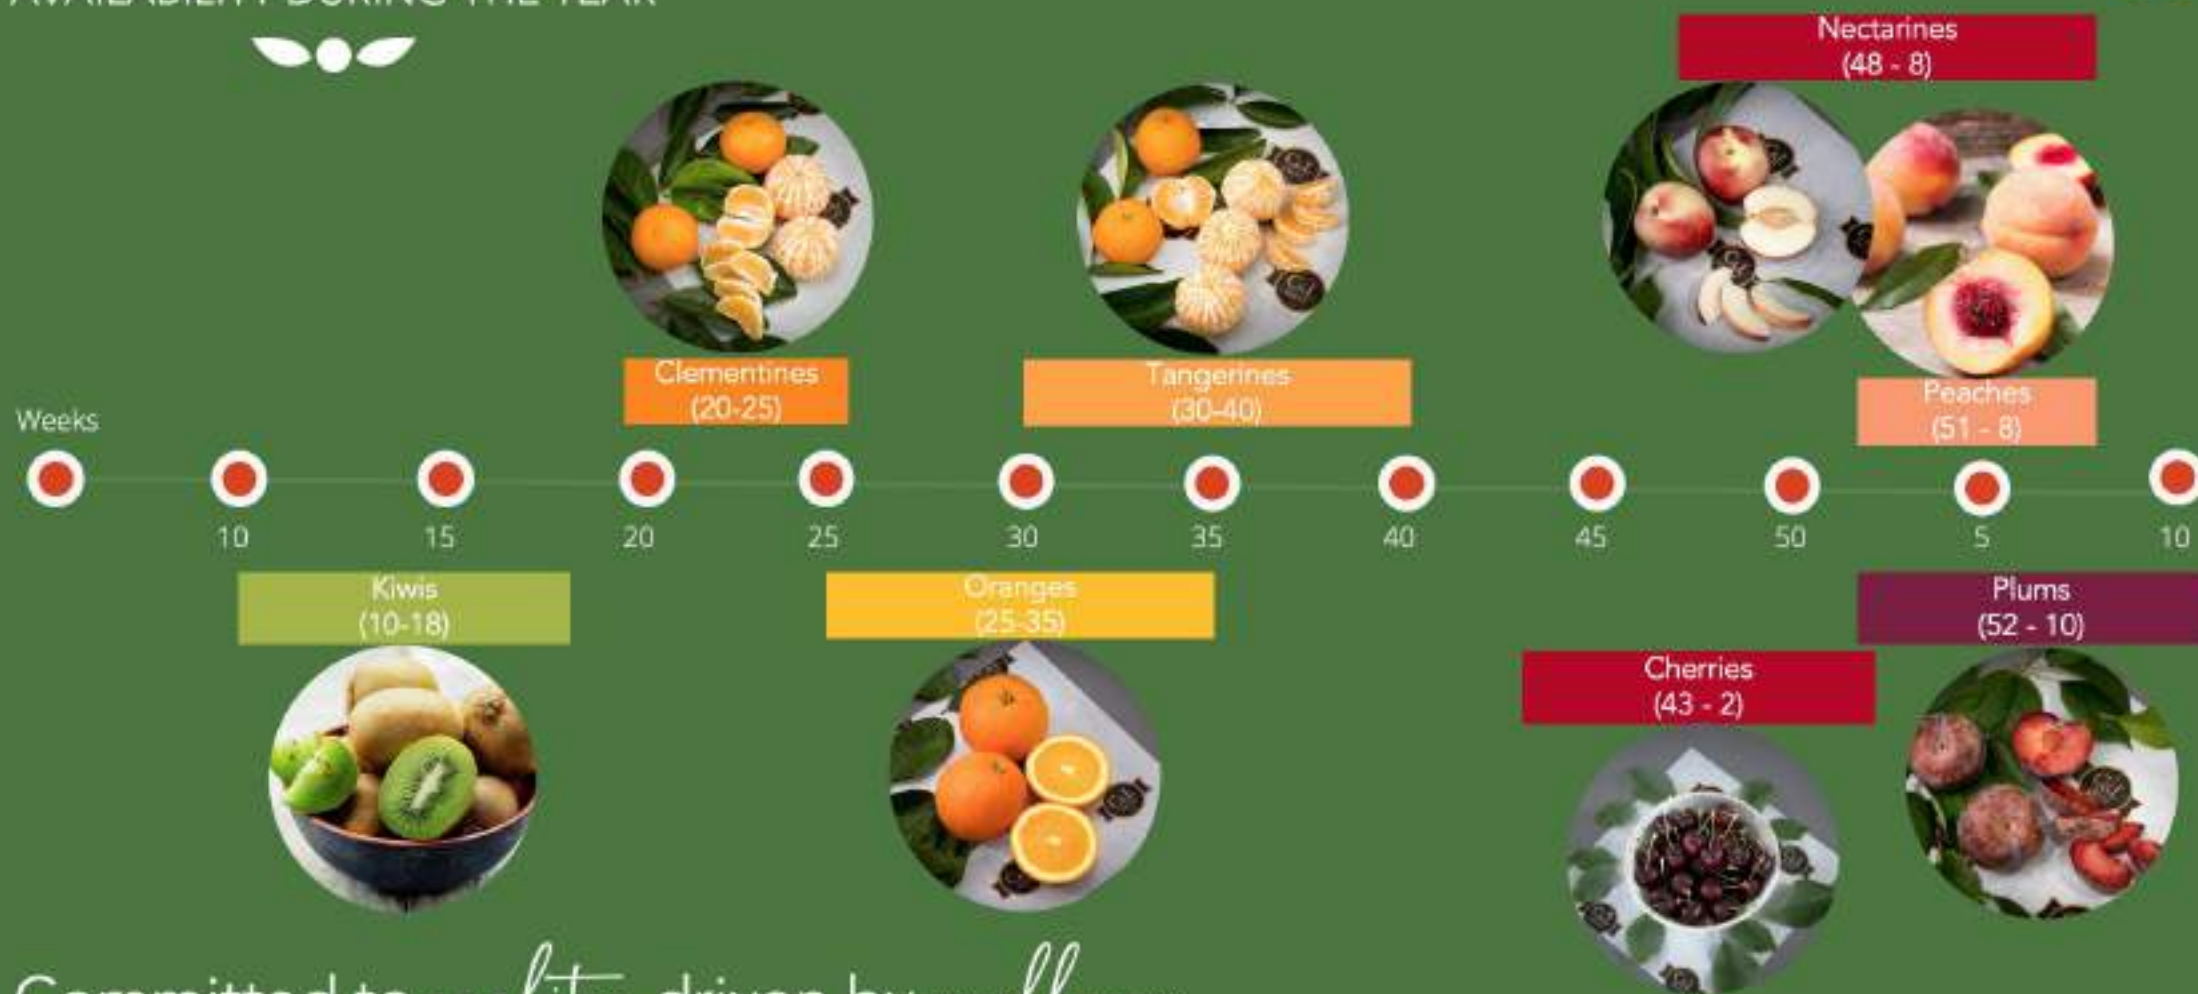

Juicy and colorful *plums*

Bright and tangy *citrus*

Our fruit

AVAILABILITY DURING THE YEAR

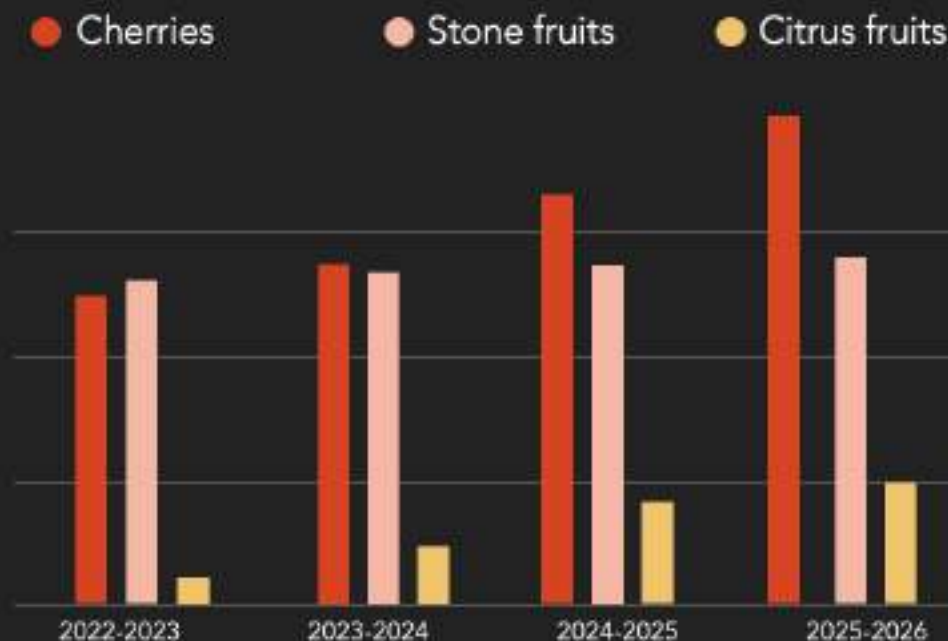

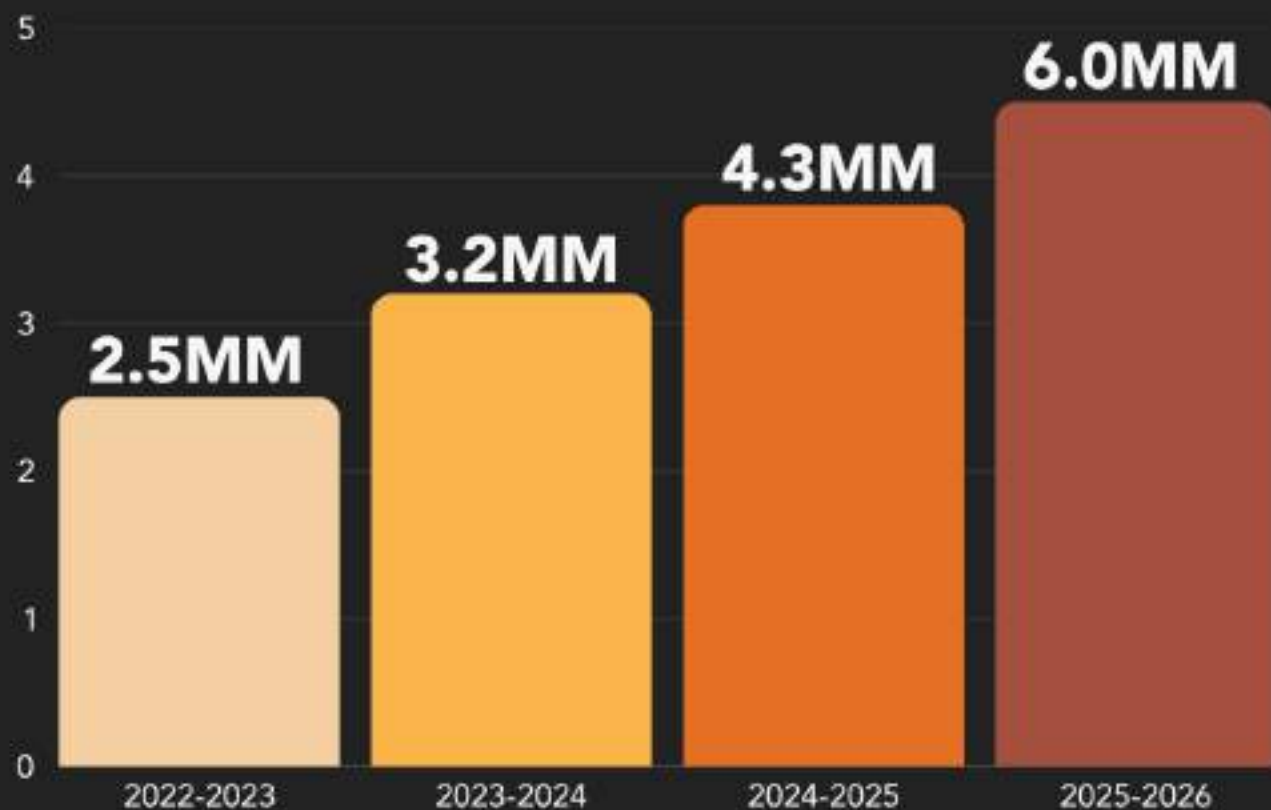

Committed to *quality*, driven by *excellence*

Our Future

DRIVING STRATEGIC GROWTH

+56%
Growth in 3 years

3. Quality and Innovation

Vertical Integration

A complete integration from orchards and packing, to logistics and export. This ensures quality consistency, supply, and projection of our final product.

High operational *standards*

- **STATE OF THE ART TECHNOLOGY**
It detects size, color, and internal and external defects, thus ensuring excellence in quality.
- **UNITEC CHERRY VISION 3,5**
52 cherry processing lines.
- **UNITEC STONE FRUIT VISION 3,5**
10 stone fruit processing lines.

High operational *standards*

PRODUCTION CAPACITY

- 550.000 kg of cherries per day
- 400.000 kg of stone fruits per day
- 200.000 kg of citrus per day

32.000 m2 of packing area

**50% of the production with robots
and automatic palletizers**

Innovation

RESEARCH & DEVELOPMENT

- Strategic alliances with geneticists.
- Exclusive plantation renewal.
- Better genetic quality.

Global *Certifications &* Food Safety *Commitment*

- Food safety and product integrity are our top priorities.
- We comply with the highest international standards through certifications such as BRCGS, SMETA and Walmart.
- Daily audits by PTI ensure strict food safety protocols across all operations.
- Full traceability from the orchard to the final destination, with perfect control of every step.
