OUR VALUE

Growing Together

Our commitment to grow together with your business underpins our entire organizations. With a strong financial backing and dedicated management, BMR Pallets has adequate resources to expand and evolve aligned with your business needs.

Sustainable & Strategic Solution

We are positioned ourselves as a strategic partner to deliver a sustainable solution for all your packaging needs. You can always expect durable, affordable, and green products from what we produce.

Excellent Services

It's a strong market competition, BMR takes pride in delivering professional attitude and impeccable services at all times. By working to understand our customers' expectations and then to strive to surpass those expectations, BMR delivers customer service with a difference.

Who We Are

BMR has established itself since year 2009 as the most reliable and dedicated national wooden pallets manufacturer in Indonesia with years of experience delivering quality products to any kind of corporations.

Continuous Improvement

Driven by our passion for excellence, the people of BMR are constantly seeking better ways to improve the products, processes and facilities. It includes managing material inventory, increasing process efficiency, maximising quality, investing in facilities as well as JIT (Just-In-Time) Delivery.

Deep Business Understanding

Our experience and thorough knowledge about the industry show our deep understanding about how your business can benefit from consistent, high-quality and affordable pallet. And not to mention a lot of regulation updates like ISPM #15 compliance, EPAL system, IPPC conformance, etc. that we fiercely deliver to you.

"We offer efficiency, productivity, economical and in-time delivery. In short, we provide solutions."

We invest in the state-of-the-art technology and facilities to meet our targeted productivity and efficiency. All are maintained in first class condition and under safe working environment. The production capability and storage system are high volume and capacity to cater all your pallet requirement and delivery time.

DEDICATED PRODUCTION FACILITIES

ASSEMBLY PROCESS & MANUFACTURING FACILITIES

Karawang Plant
Area : 3 Ha (30,000 sqm)
Capacity : 30,000 / month

Gresik Plant
Area : 1 Ha (10,000 sqm)
Capacity : 20,000 / month

Boyolali Plant
Area : 1 Ha (10,000 sqm)
Capacity : 25,000 / month

HEAT TREATMENT FACILITIES

12 Chambers with Capacities total 1,350m3

3 Water Heater Boilers

Water Heaters using fixed grate combustion system for burning low ash fuel such as wood waste.

All of our wood material is treated through HT process.

STRINGENT QUALITY CONTROL

We always strive to implement the quality control measures necessary to ensure that our products are performed to the highest quality standard possible.

We consistently implement a strict procedure to ensure the final product meets, or exceeds, our clients' expectations

HEAT TREATMENT FACILITIES

Wood packaging material such as wooden pallets should be heat treated using a specialist kiln in accordance with specific guidelines which lay out temperature and duration. Wood packaging should be heated till the minimum wood core temperature reaches 56 degrees celsius.

BMR HAS LARGE CAPACITY OF HEAT TREATMENT FACILITIES WITH MODERN TECHNOLOGY

To make sure the consistency and quality of our wooden material according to ISPM #15 Standard.

STRINGENT QUALITY CONTROL

BMR continuously enhance the product quality through stringent QC to reduce risk, improve product efficiency thus result in our Customer loyalty.

Conquering Local & Export Market

Our Pallets has conquered Indonesia market for years, with loyal Clients from big & reputable Companies in Indonesia. And within less than 3 years since we open our market for overseas, our export rates has been increasing tremendously.

As a requirement for International Trade, BMR Pallets comply to ISPM #15 and has obliged to bear an ISPM #15 mark through either Heat Treatment or Methyl Bromide treatment, especially for export-oriented Customers. ISPM #15 stands for International Phytosanitary Standard for Wood Packaging, which is regulatory action to help prevent the spread of destructive pests. Wooden packaging material is often made of unprocessed raw wood, which can provide a pathway for the introduction and spread of such pests if left untreated.

indonesian
legal wood
certification

All our wood raw material is certified by SVLK (Indonesia Timber Legality Assurance System), which is a tracking system made by involving multi-stakeholders to assure the legality of sources from which timber being traded in Indonesia originates. SVLK is also meant to encourage the implementation of the existing Government's regulations related to trade and availability of legal timber in Indonesia.
