QUALITY SERVICES

OLICOBROKERS is a 100% Greek company which offers superior quality services for the management and trading of all categories of olive oil either in bulk or bottled for foreign and/or local market. With an experienced and well trained staff, the company aims to offer the best service and guide under great responsibility to its clients in order to achieve the best possible results from the administration and trading of their olive oils.

OLICOBROKERS, owes a wide range of selected and considerable clients all over the world such as Italy, Spain, U.S.A, China, Japan, Vietnam etc, who entrust to her the supply of Greek olive oil for all its categories.

OLICOBROKERS, is considered one of the best collaborators either from Greek exporters or from foreign buyers for the continuous and objective updating, the know-how and the consultative direction in order to find out the ideal quality for every particular request as well as the achievement of the best conditions for the buying and selling of their olive oils. With its collaboration with the best certified and up to date chemical laboratories and its experienced team for tasting and valuation of olive oils, it is allowed to guarantee the quality and genuinity of the offered olive oils.

OLICOBROKERS, has recently created its own product line of bottled olive oil under registered Brands, which represent its experience of many years in choosing the best qualities all over Greece and its aim to offer to Greek olive oil lovers selected qualities.

OLICOBROKERS is aiming to support by all means the value of Greek olive oil and push forward the superiority of its quality.

The *Tasting*

olicoBrokers

OLICOBROKERS disposes an experienced staff for the tasting and evaluation of the olive oil, member of which participates in a certified “panel” of tasting. With this possibility **OLICOBROKERS** offers to all its clients of foreign and inland markets, services for the valuation of their olive oils either they are destined for bulk trading or bottled products destined to consumers.

The specialized staff of **OLICOBROKERS** for the tasting procedure is also using the method of “olive oil blending” for those who entrust to her the preparation of a lot to be exported as bulk or the creation of the company’s final profile for branded olive oils from different lots or varieties to be bottled.
