Superb Interior and Exterior Longevity

One million cycle tests ensure that Waterson Closer Hinges are durable and reliable over a long period of frequent use.

Features

- Light Opening Force
- Heavy Duty Loading
- Innovative Weather Cap
- Anti-friction Bearing Surfaces
- Effective Speed Control

Stainless Steel Ensures Attractive Durability

Crafted with 304 & 316 stainless steels, Waterson Closer Hinges are corrosion resistant, making them an aesthetically pleasing and sustainable solution for harsh environments.

K51MP Butt Hinge Type

K51P Surface Mounted Type

Easy Installation and Maintenance

Install like traditional hinges in under 25 minutes. The patented self-closing mechanism is easily adjusted with a standard hex wrench and requires little maintenance.

Quick Adjustments

- Standard Hex Wrench
- Precision Force Setting
- Latch & Swing Speed Control

The higher the number, the stronger the closing force.

Easy speed adjustment.
