Pre-conference Guide

The *Yushan Forum: Asian Dialogue for Innovation and Progress*, launched in 2017, is a platform for Asian regional dialogue initiated by Taiwan, with the purpose of expanding multifaceted opportunities for cooperation and facilitating the exchange of ideas, talent, technologies, and social initiatives. The event, which also seeks to deepen Taiwan's partnerships with Asian nations, is attended by government and industry leaders, thinkers, innovators, and young talents from across Asia and other like-minded countries.

As the COVID-19 pandemic enters its third year, the world is beginning to see some light at the end of the tunnel. As such, the 2022 Yushan Forum will explore the prospects of **“Revitalizing, Reorienting, and Reconnecting.”** Focusing on regional prosperity and stability, the Forum will feature Taiwan's New Southbound projects from the perspective of regional community development, while also highlighting non-governmental actions on a regional scale. This year's Forum will also particularly focus on the flagship programs, development policies, and prospects for post-pandemic recovery in Taiwan, the New Southbound countries, like-minded countries, and countries in the Indo-Pacific region.

The annual Yushan Forum is organized by the Taiwan-Asia Exchange Foundation (TAEF), a policy think tank with a focus on cooperation and exchange in South and Southeast Asian affairs. In the spirit of implementing the New Southbound Policy, it is the goal of the TAEF to facilitate partnerships between Taiwan and other Asian countries, while promoting a sense of regional community for the development of Asia. Apart from the annual Yushan Forum, the TAEF also hosts other activities with a core focus on youth engagement, civil society cooperation, cultural exchange, think tank collaboration, and regional resilience.
